International Credit Union Day Thursday, October 18th

The credit union movement is steeped in a rich history of collaboration across divides. For nearly two centuries, financial cooperatives have encouraged people of every race, gender and belief to come together and give their all towards the betterment of their communities. It's about people helping people. That's why credit unions always offer a platinum lining.

This year, we're celebrating International Credit Union Day's platinum anniversary, a chance to look back after 70 years and be thankful for the lives and communities that have been improved by the unique principles and actions of our movement.
